# Getting Started with the Key Links App

**iPad**: The Key Links App can be downloaded from the App Store or via this link

**Android Tablet**: The Key Links App is only available on the Google Play Store and can be downloaded via this link

Alternatively users can search "**Key Links**" on the respective stores

Once installed, users will require a login to access its content.

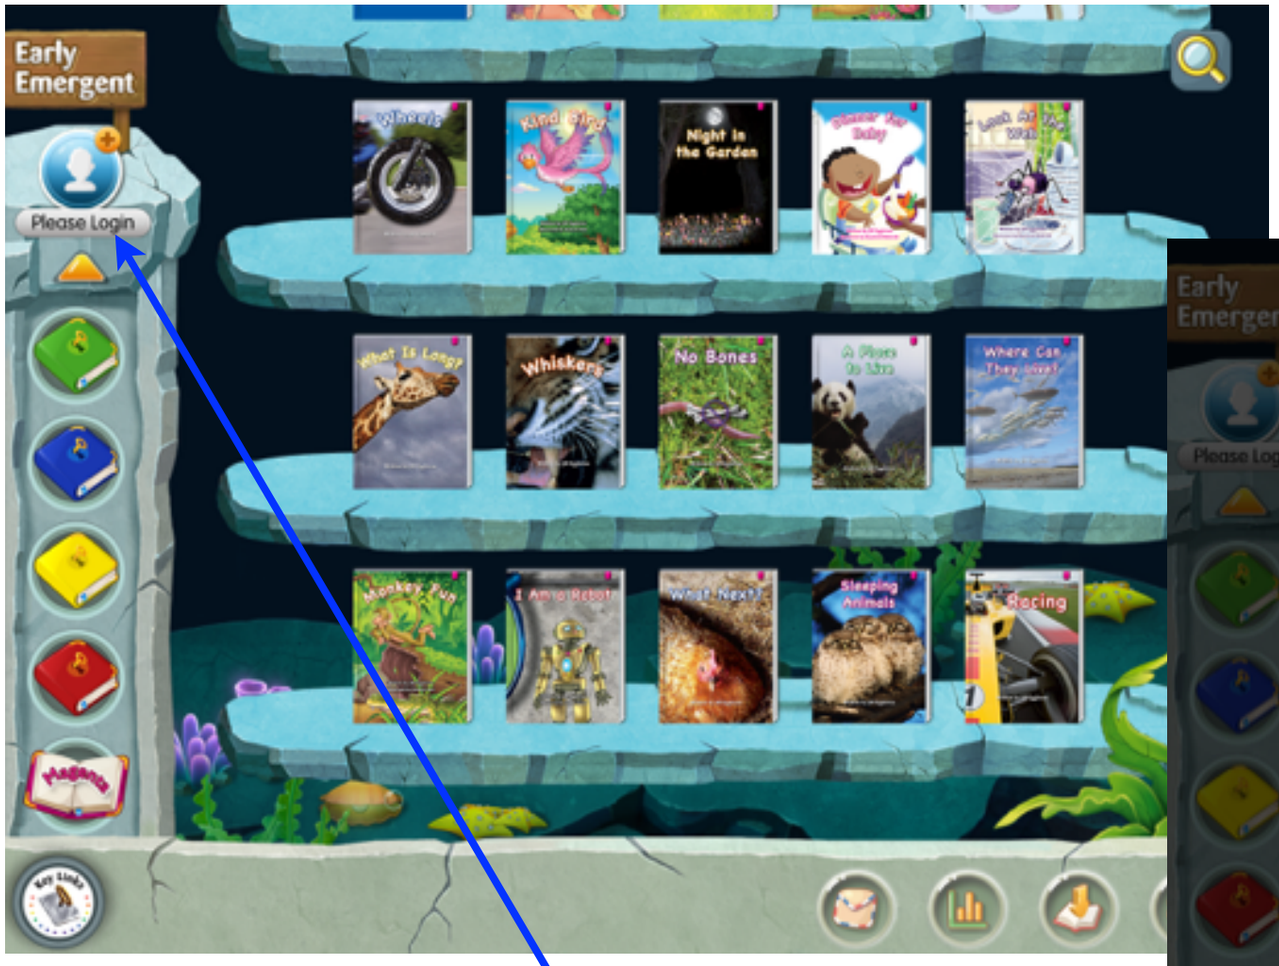

# Version 1 Users:
# Updating to the new version…

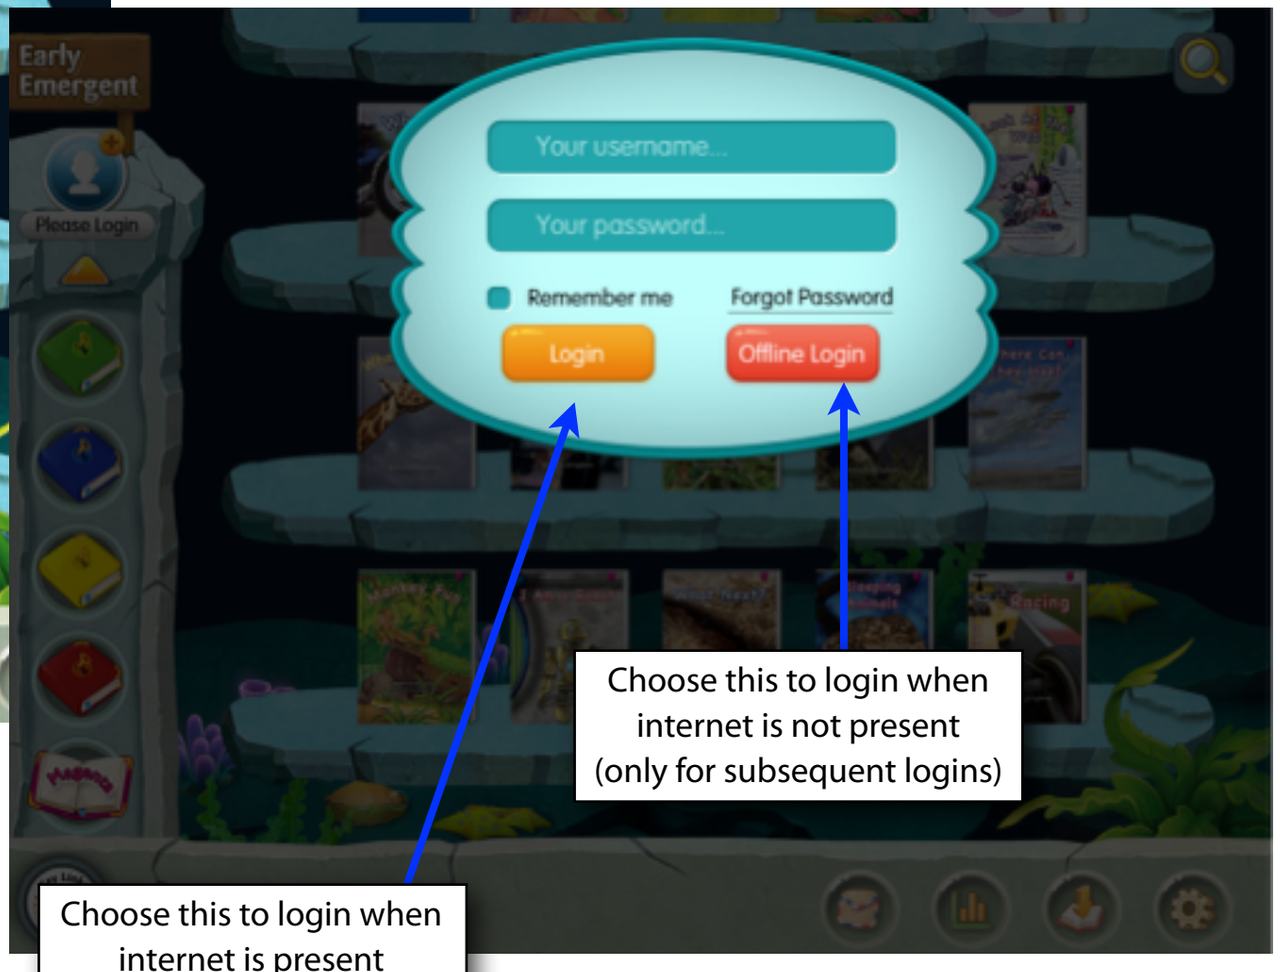

Existing Users updating to the new version of the Key Links App (v2.5.9) will need to download the titles again because of the new features. However, account information and access will remain unchanged.

# Tablets: Getting Started

Users will need to be connected to the internet when logging in for the first time on the device.

Tap here to login

Choose this to login when internet is not present (only for subsequent logins)

Choose this to login when internet is present
